

## Building Materials Needed...

Dear Parents,

Now that we have finished our Hearing and Sound Unit in science we will be beginning our next unit, Building Things. During this unit we will be making many different projects. Beginning tomorrow, could you please try to save the following items:

paper rolls	small boxes
kleenex boxes	plastic lids
shoe boxes	milk cartons (washed out with soap)
fruit baskets	spools
styrofoam meat trays	cans
straws	

Also, be on the lookout for pictures of: skyscrapers, bridges, towers (famous ones), playgrounds, vases etc.

Sending in any of these materials after we get back from the break would be greatly appreciated. Help us keep stocked up by sending in these materials until the end December.

Thank you for your help,

Mrs. Kuzyk
